the specification of which

☒ is attached hereto.☐ was filed on _____ as reissue application number _____
and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described as follows:

The attorney failed to appreciate the full scope of the invention and unduly restricted the invention by requiring that base stations in adjacent cells must each be assigned different frequencies for communication, and that user stations within adjacent cells have to also be assigned different frequencies for communication. The possibility of this error was first discovered after payment of the issue fee, but the attorney did not fully appreciate the proper scope of the invention until after conducting an investigation which was not completed until after the patent issued.
